

14th February 2019

Two gorgeous boys called **Dillon and Denzil** arrived at the centre today, they were a part of an unwanted litter and we believe they are Newfoundland Cross Labrador. These two brothers didn't have the best start in life as they had seen nothing of the outside world and it's clear they find new experiences very frightening. We are so glad they are now in our care and we can begin to settle them in.

Bye for now

28th February 2019

Dillon and Denzil are still nervous. During this week we have been working on building up their trust. It is going to be a difficult process for them but they are showing no malice, just pure fear. It is upsetting for the staff to see, for example when we initially just stroked them they would defecate and urinate. As nervous as they are, they are both doing really well and are now beginning to settle in.

14th March 2019

Pamper session!

We are so proud of the progress both **Dillon and Denzil** are making. We have been very slowly teaching them what a lead, collar and harness are. They have also had a small pamper session and been brushed, which they coped so well with. They are both starting to trust the staff here so much so, that Dillon decided to have a nap with one of the members of staff! In the next few days we will begin to show them how to mix with other dogs here at the centre and get them used to the car, as they have also never experienced this.

Bye for now

27th March 2019

It has been a fantastic week for both these adorable dogs. They have started to jump in and out of the centre van, we made this a positive experience for them so that they feel more confident travelling. As they were doing so well with this, a few days later we decided to drive a short distance up the road and have a walk on Dartmoor with Dillon, Denzil and Big Al, who helps with building the confidence of other dogs. This trip out has really helped build up their confidence and they now look forward to getting into the van as they know there is a fun walk awaiting them!

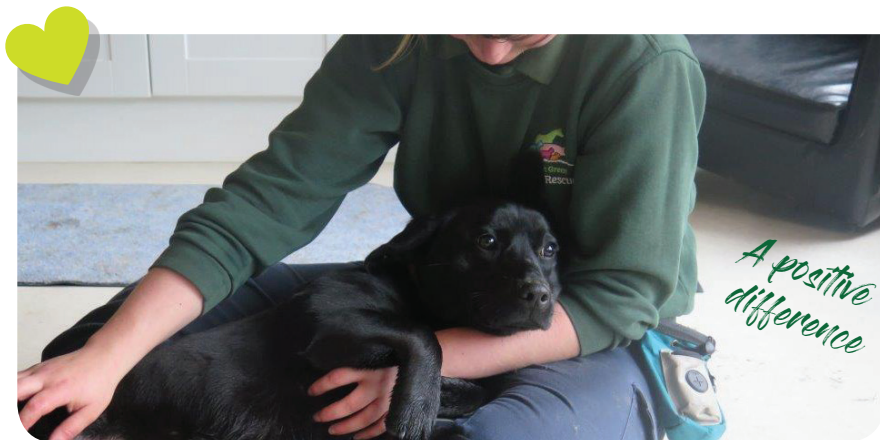

Bye for now

4th April 2019

We have seen such a positive difference in both Dillon and Denzil, they are now saying hello to new people and have been giving out kisses! We are really looking forward to them joining us for the **Wingletang Sponsored Walk** on the 7th April. They aren't quite ready to be rehomed just yet but with further care provided by the staff they will soon be well on their way to finding a forever home. Once they are ready they will be looking for a calm but active home, preferably with a steady dog but most importantly their home will need to be with someone who is willing and able to continue their socialisation and training.
